Subject: Do not let emergency extension bill pass
Date: Thursday, 3 March 2022 12:26:26 PM

I am writing to say that I very much oppose the passing of the emergency extension bill. Time and time again, we have shown that the QLD covid mandates and authoritarian bullying by the government have destroyed lives and families. Domestic violence, suicides, etc are through the roof.

We've had enough. I'm asking you to back off and let us live our lives. I'm fully vaccinated, but I'm disgusted at how you've handled and bullied QLDers over and over again through this. Give people back their jobs, let all people shop and dine in their own state. So much of your fear tactics and data exaggeration had been deplorable.

Do NOT extend your state of emergency. Leave us alone.

Sam Hatch
