Hi,

The purpose of my e-mail is to voice my concern of the extension of the Emergency Bill until the 31st October 2022. I do NOT support this or want this.

I am currently stood down from my teaching position due to these mandates. I have been teaching for the past 10 years and rarely called in sick or been away for any large amount of time. I offer activities at lunch times and always put my hand up to help out. I am healthy and ready to go back to work.

More than one of my colleagues, have had adverse effects which stops me from getting the vaccine.

If this extension is extended, it will leave me no option but to go into other employment which will be a loss to the teaching profession.

Regards,

Sharon
