I am strongly opposed to the extension of the Emergency Bill for the reasons listed below.
. ABS figures demonstrate that deaths from covid are half the deaths from influenza from 2019.

- . The economy has been devastated by measures taken under the State of Emergency.
- . Small and medium business has been sent to the wall in this time period.
- . Massive financial pressure has been placed on those who have lost their livelihoods due to draconian vaccine mandates.
- . Massive waste of public resources enforcing these mandates.
- . Public admission by both Bill Gates and Pfizer CEO that the vaccines have little or no effect on Omicron.
- . Gates admission that natural immunity is superior.

It is time for the fear mongering to stop, and with it this unjust and unnecessary State of Emergency.
