Dear Sir/Madam,

I am writing as a concerned Queenslander wishing to express that I do not want the Extension to the Emergency Bill.

We have clearly seen that the numbers for Covid infections and deaths are steadily declining.

I have been adversely affected by these emergency powers that have been used to mandate high risk workers. I have been stood down from my job as a teacher, even though I am fully willing, capable and able to return to work. I have a medical exemption that is not recognised as proof of ability to work.

We are seeing a return to normality and the dropping of mandates in different countries around the world. Surely it is now time to act and follow suit.

Can I refer you to the the attached Cummulative Analysis of Adverse Event Report prepared by Pfizer, which clearly outlines the rise of adverse effects to its vaccine.

It is your duty as a public servants to all Queenslanders to put an end to these overreaching emergency powers that have been used in this country for the last 2 years.

I am looking forward to hearing a response from you. I [REDACTED]

Kind Regards
Anna Sluggett
