I think this legislation to extend the emergency powers of the premier is crippling for the economy and our freedoms

The evidence is available from real experts world renowned , that this is not a pandemic and there are many alternatives to forced vaccines (if you are forced to leave your work by not choosing an experimental “vaccine”, this is not choice)

Public Health and Other Legislations (Extensions of Expiring Provisions) Amendment Bill 2022

Is NOT to be Extended.

This has ruined so many lives and continues to do so if the states are not stopped .
