**Subject:** STOP THE MANDATES  
**Date:** Thursday, 3 March 2022 2:14:32 PM

---

To Whom It May Concern

STOP the mandates forced upon me - immediately!

Stop them being continued when there is now no clear nor present danger from the threat of the 'lethal' spread of Covid 19.

I have been *discriminated* against because of my *right to choose* what I will or wont put into my body - a violation of my fundamental human rights under the Geneva Convention - this *discrimination* continues until these mandates end.

To have to divulge my medical history to go about my everyday living is a gross violation of my fundamental human rights - the states over-reaching enforced mandates have eroded any protection I should be afforded under our federal constitution.

The state over riding federal jurisdiction under the cover of covid is an absolute abuse of power and needs to stop NOW.

The meeting of the national committee was an absolute joke because for it to have teeth all parties have to be employed by the federal government - what a sharade!

I am tired of receiving directions on what I can and can't do according to an unelected public servant operating under the directive from government who themselves are beligerantly operating under self enforced emergency contingincies.

I am sick of government operating without any checks and balances usually afforded in a democracy - rather we have a dictatorial government making up their own rules and forcing them upon me

when I do not subscribe to this facists approach in any way whatsoever.

I want to support local business (sports clubs, bars, cafe's, restaurants) but can't because of draconian and useless mandated dictates.

I remind the government they are NOT responsible for my health - I AM.

STOP pushing for experiemental drugs to be put into my children when there is little evidence of their efficacy, continually changing information and myopic reporting of their effect; short, medium and long term.

The two years of threats, scaremongering, co-ersion, discrimination etc...is nothing short of a disgrace and appalling - may I remind you that you serve us!

I vote, I matter.

G Johns
