I do not believe the best way to move forward for Queensland is to continue the Emergency Bill.

Please DO NOT pass the Extension to the Emergency Bill.

I myself and my whole family contracted covid and were fit and healthy within three days ... it went through our whole family of 6 in 5 days from start to end.

Many I know have had similar reactions - the media has exaggerated the data.

I have suffered from mental health issues with the continual bombardment from the media and these have been exacerbated with being segregated from loved ones. I now get anxious when at the shops because I can't see people's faces.

Every time we've gone into lockdown, one of my children has a complete meltdown.

We've had to outlay thousands of dollars just to support her over the last two years.

Kind regards

Michelle Evans
