Dear Minister for Health,

I am writing to let you know how displeased and upset I am at the idea of extending the Public Health Bill.

I am strenuously opposed to any suggestion of a further 6 month extension, especially in view of the indisputable facts that

have now presented themselves, both here and overseas.

The Omicron variant of the Covid 19 is no more dangerous than the flu. With such a large majority of people now vaccinated,

there is no logical reason to extend these powers for a further 6 months.

Within our society, businesses and normal social interaction are completely jeopardised by this unnecessary intrusion. Current lockdowns and no job no job policies must end in order to bring normal life back into our communities.

I implore you to not extend these powers.

Yours Sincerely
