Hello,

I am writing to you to ask NOT to extend the state of emergency in QLD. The SOE is not necessary and hasn't been for the last 2 years. Ending the mandates is needed and should never have been put in place. It has caused immense segregation among people and has discriminated against thousands of people. I personally have lost work and income because I choose not to have the 'voluntary' vaccine and I will not be coerced to do so. If it really was as safe and effective as made out there should not be a need to force this upon people by taking away their jobs and livelihoods. As it turns out the data is showing covid is more rife among those who are double jabbed. This has got to end and let people get back to some normal way of living. Future generations will thank you for being on the right side of history by ending this now.

Regards
Sarah Osborne
