Subject: PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022
Date: Thursday, 3 March 2022 8:08:13 PM

I am writing to express that I am not in favour of the PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022

I am a small business owner, wife, daughter, granddaughter, sister, aunt, mother of two. I also see many other businesses and families in my local area and beyond that have all but held it together throughout the last 2 years. Families are suffering, children are suicidal, Marriages are in tatters, once close relationships are now divided. Any further restrictions imposed by this power hungry dictatorial government will see more and more businesses collapse and more families broken. Enough is enough. The cure is now worse than the cause. There is no pandemic, if there ever really was one. And if there was, it's well and truly over. Any further extension of these emergency powers would be nothing short of a disaster for Queensland. Queenslanders have had enough. It is time to get back to normal and get on with it. There is no emergency, you've vaccinated nearly the whole state whether they wanted to or not, if it doesn't end there then when?? The government needs to stop this BS and stop fear mongering the public. The public are well versed enough to take responsibility for their own health matters and decisions. Stop segregating society and discriminating against people. People need their jobs back, their lives and their freedom back. Children need to feel safe and nurtured and live normally, but with so much continued restraint and pressure and stress on families, our future generations are in danger of slipping into irreparable despair and hopelessness. This government has made a massive over reach, abused, scared and controlled and it has to stop now! This is the people's state, the people are in charge of this state, the people are saying NO, listen to the people!!

Sincerely written,
Selene Jackson
