AMENDMENT BILL 2022  
**Date:** Thursday, 3 March 2022 8:40:37 PM

---

I am a cancer patient and have enough of the government putting the control on what we put in our bodies.

Enough is enough. I do not believe in these

vaccines. It doesn't and hasn't stopped the spread of the Covid as we call it.

I have no fear of getting the Covid sickness, even though I have been dealing with Cancer for the past five years I feel that this vaccine will cause me more harm than Cancer.

We need to get back to the real Australian way of freedom of choice. I had a death sentence with Cancer but I was given a choice of whether I had treatment or not.

Look how many people die daily of Cancer so do we run around forcing people not to eat, smoke, drink these things to prevent a the death toll and spreading diseases. NO

Please let our children feel the enjoyment of being young and teaching them they can make their own choices in life and not be dictated to and controlled by the governments.

Who called them GOD

Feeling hopeless and disappointed

Janette Knight
