Subject: Extension to the Emergency Bill

Good evening

I am writing to state that I do not wish the Qld parliament to extend the emergency powers any further.

The emergency of covid has now passed. The powers were justified at a time when we didn't know very much about the illness. However things have changed in the past 2 years. COVID is now wide-spread through our communities and deaths have remained very small. In fact deaths are almost totally confined to those who have surpassed the average life span.

Therefore I feel the emergency powers have no place in our society.

The mandates imposed by this government have not made any difference to the spread of covid in Qld, with the data showing the virus is spreading across the entire community, both vaccinated and unvaccinated. The segregation, the damage to community, businesses and mental health are destroying what was once the greatest state in Australia. Let Queenslanders return to their lives unhindered.

I state I do NOT support the extension of emergency powers in Qld.

King regards
Robyn Sargent
