Subject: Stop the 'Extension to emergency' bill
Date: Thursday, 3 March 2022 8:46:09 PM

Hi there,

I write this as a proud Australian citizen. I love my country but I have found the last two years very challenging. A significant part of that has been due to the government's exaggeration and single-minded focus on COVID. Yes, it was a big problem to be tackled but I don't think it required the removal of so many of the personal freedoms that we have all taken for granted. I do not wish to live in a society driven by fear anymore. The numbers are declining, the vaccination numbers are high and people need to be free to go about their business. I ask that you stop this bill from passing. I do not want an extension of the emergency bill until October. I want this segregation, discrimination and fear mongering to end.

Thank you,
Rachel Kwan
