Subject: Opposition to extension of emergency powers
Date: Thursday, 3 March 2022 8:50:46 PM

Hi, my name is Bruce Arthur of [REDACTED]. Phone number [REDACTED] (absolutely no idea why this information is "required" for a submission to be accepted, and i imagine summarily ignored, and i include it under duress) and i'm writing to express my immense opposition to the proposed extension of the state of emergency. I do not consent to a group of representatives (the govt) having this much (or any) control of my life. I believe the grounds for claiming an emergency have been insufficient the whole time and I have been absolutely disgusted by all levels of governance over the duration of this "pandemic". The only thing i want from govt is suggestions and accurate reliable information so I can make up my own mind about decisions for MY health. I honestly believe that what has gone on at a state and federal govt levels is criminal and should attract appropriate jail times at least.

The shameless use and collusion of the media to spread fear and innacurate or twisted information amounts to abuse of the populace. On top of this, i have been treated as a pariah and locked out of the society that i live in and pay for on account of my refusal to accept an experimental medical procedure that in the end is at least ineffective if not dangerous. How does this align with vaccination guidelines? Watching friends lose their careers and ability to keep food on the table while our govt overlooks legitimate safety concerns to achieve their prized vax rates - disgraceful!

As stated previously, i do not believe that representatives should have any power over the populace to begin with. Govt should enable our lives, not constrict and constrain. I wholeheartedly oppose any extension to "emergency" powers and frankly will be actively seeking any opportunity to ensure govt officials are held accountable for the damage caused to their constituents lives. Bruce
