Hello,

I definitely DO NOT want the extension of the emergency bill until the 31st of October 2022.

The disgusting level of breaches in civil and human rights from the pathetic over reach by the our government by using seriously flawed testing, and trumped up data which has now been found to practically fraudulent is unbelievable.

To intentionally created segregation/apartheid in our own country for your own means is despicable to say the least.

The financial and social damage you're responsible for with the economy, families, business and individuals will take possibly years to recover.

The level of deception that has been pushed by the media and government has probably damaged reputations and trust, to the point where the people will possibly never trust you again.
