**Subject:** NO extension of Emergency Bill (u til 31st October 2022)  
**Date:** Thursday, 3 March 2022 9:46:52 PM

---

Hello members of parliament. Please stop with this emergency Bill.

And please provide evidence:

- exaggeration of Covid data
- segregation in society.
- this is such a terrible isolation on our society.

We cannot see our grandchildren without the fearfulness. Our children need to know they do not have to be afraid to breath the same air as family. My grandchildren wear masks in my home. What messages are we sending them. And the masks like the queenslandhealth approved we use in the wards to do procedures on patients and are not meant to be worn longer than half an hour.

It is not honest to tell my grandkids that it protected them because it does NOT.

I work in the health industry and the data does not reflect the actual truth of the deaths FROM the so called virus as those who are vaccinated under two weeks are not counted as vaccinated but ther deaths were from the other co- morbidities straight after the jab. N Further unvaccinated people build a natural immunity which is far far greater that the vaccinated person.

I am not able to work and I have a mortgage and I am an aged penisioner.

I just have a few more years to pay off my loan. And struggling now as by bank has increased my payments because the just did interest only while I have not worked. Now I am faced with a bigger debt than before Covid.

Our mental Heath is suffering.

Put a stop to this exaggeration and misinformation. And the silencing or gagging of our health workers.

Kind regards

Karen Madonna Cloherty
