Subject: No extension to emergency bill

To whom it may concern

I am writing to say I do not want an extension to the emergency bill until the 31st of October 2022. There is no peer reviewed evidence to suggest that covid is a danger to society and many health ministers around the world have failed to submit evidence that covid can be isolated from other corona viruses when asked to in a court of law. The vaccine is simply not needed and I know of many people who have had adverse reactions from the vaccine. Me and the wife recovered from covid in 5 days (unvaccinated) and all the flu's I have ever had I would rate the alledged covid flu the most benign I have had. I would like to know how I have been a burden on the health system and why my wife cannot earn a income as she is a teacher? We are under financial stress because of this but there is still no way we will submit to experimental vaccines from a company that have paid the biggest criminal fine in history.

Yours sincerely
William Kallan Luke Preston
