Subject: No to extension of state of emergency bill

To whom it may concern,

As a concerned citizen, I must write and say that qld's proposed extension of state of emergency bill must stop. We are no longer in a state of emergency as so many people have had Covid and already recovered, including all my family and the majority of my friends and friends of friends. The mandates and restriction and anxiety and fear needs to be on the decline and stop. This will not happen if Qld continues to be in a state of emergency. Other states have struggled before we did and are returning to normal. QLD needs to follow suit and trust Queenslanders to make wise choices for themselves.
