**Subject:** I DO NOT WANT an extension to the Emergency Bill  
**Date:** Friday, 4 March 2022 2:27:07 AM

---

I do not want an extension to the Emergency Bill. How dare this even be considered.

I Do Not support the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 (Bill) which will allow the State of Emergency in Queensland to be extended to 31st October 2022.

My Reasons Are:-  
Certified Data

According to the latest figures from the Australian Bureau of Statistics (March 2020) there has been a gross exaggeration of the Covid-19 data on death reports.

The data states that 273,901 Australians died between March 2020 until the end of January 2022.

How many had Coronavirus?

Answer: 0.9%. There were 2,639 Covid related deaths.

In the same period:

100,000 Australians died from cancer.

32,000 Australians died from heart disease.

30,000 Australians died from Alzheimer and dementia.

10,000 Australians died from diabetes.

The average annual number of deaths due to influenza and pneumonia between 2015 - 2019 is 2,908.

The median age of death of those who died of coronavirus was 81 for men and 86 for women.

Both are above our national life expectancy.

92% of the 2,639 covid related deaths had other underlying health issues, an average of roughly three diseases or conditions per person. These conditions ranged from pneumonia to kidney infection right up to the biggest risk factor of all. The health of our heart.

This emergency bill is now targeting the children.

Innocent children with their whole lives ahead of them are being injected with a harmful, experimental toxin, the results of which undoubtedly unfold in the forthcoming years.

These records from the Australian Bureau of Statistics have exposed the overblown scare campaign we have witnessed.

This Emergency Bill has destroyed health. It has destroyed the Australian Economy and it has destroyed lives and will continue to destroy lives and livelihoods for many decades to come.

Mandates are nothing but draconian measures designed to remove our freedoms, control the population and destroy lives.

Mandates have caused thousands of people to lose their jobs. They include teachers, nurses, Doctors, police, fire fighters, aged care personnel and many more.

Losing a job can take away the ability to pay a mortgage. To lose financial security and lose life goals as well as cause anxiety, heartache, fear and loss of family relationships. Not to mention social interaction.

It is time to stop the Emergency Bill, the draconian mandates, the lies and propropaganda from governments and main stream media that has been used on the Australian people for the past two years.
