I am writing to state that I DO NOT want an extension to the emergency Bill (until 31st of October 2022)

It is time for us to start living with Covid. We need to allow people to go to work, to have their jobs, to run their businesses, to open their restaurants to all customers. We need to allow the workers to go back to their jobs. We need to allow the public the basic human right of being able to choose whether or not they are injected with experimental medications. And we need to stop living in fear of losing our livelihoods for making that decision. The pandemic is over.

Kind regards  
Eve Martin
