Subject: Submission to Stop the emergency Bill
Date: Friday, 4 March 2022 6:02:45 AM

My name is Marie Farnworth
[redacted]7
I'm a registered nurse working for Queensland Health.
Why are they trying to extend the emergency order?
We are no longer in an emergency situation!
The only emergency situation is that people are not getting their surgery done waiting tears in pain for joints replaced or hernias repaired, etc.
There are still respiratory patients surfeiting because they are not getting the right treatment because of the chance they may have COVID even if tested negative on a RAT!!
Patients not getting See family/friends if in hospital or age care on important milestone birthdays, that they may not even get another birthday! Because of the rules of only 2 visitors in hospital etc.
It's cruel and u justified fir a variant that is so mild that most only have a very mild cold symptoms.
It has to stop.
The mandates must be stopped.
So many people still unable to work because of the mandates. Yet you can still catch and surreal the virus even if vaccinated!
Please stop these emergency orders/powers now.
I'm begging you.

Marie Farnworth
