To whom it may concern,

There is no longer a state of emergency anywhere in Australia. The effects of covid have been limited and now it is up to the absolute common sense of the amazing people of Australia. We can think for ourselves! The power that our premier and her ministers think they have over us all must be removed. The economy cannot continue in this way where people at the top can make changes with the flick of a switch. Please do not continue an extension of this bill. It is unnecessary and far more damaging.
