**Subject:** End the State of Emergency and Emergency Powers now!  
**Date:** Friday, 4 March 2022 7:14:51 AM

---

4th March 2022

Committee Secretary  
Community Support and Services Committee  
Parliament House  
George Street  
Brisbane Qld 4000

To whom it may concern,

I do not support any State of Emergency, and the bid to extend the government's current Emergency Powers.

There is no State Of Emergency in Queensland or any where in Australia. The Queensland State of Emergency measures still must abide by the Federal law and to adhere to our constitution and the Quarantine laws. Quarantining of healthy people without a court order is breaking the Federal Biosecurity Act 2015 and for there to be a health emergency there must be evidence of such an emergency.

Just because there are inflated case numbers, does not make it an emergency. In fact between 01 January 2021 and 13 July 2021 only one person died from Covid-19 and yet the Queensland Government has extended the State of Emergency twice without there being a state of emergency.

The use of highly inflated case numbers due to a device which clearly was never designed for what it was being used for (the inventor of the PCR Test even said it can not be used as a diagnostic tool and anything over 27 cycles will give false results and the PCR Test in Australia was being used at 40 - 45 cycles) it is clear the PCR Test was used to manipulate the public and keep them in a state of fear.

On 22 February 2021 Greg Hunt publicly announced the vaccine is a world wide experiment, people are being coerced and blackmailed into partaking a experiment without informed consent, which is against human rights in Australia, s51 (xxiii A) of the constitution, the Nuremburg Code, and many other laws within Australia and Internationally.

People are causing themselves harm while wearing an oxygen limiting medical device and many studies have shown, including Anthony Fauci's study that he was involved with in 2008, that there will be an increased number of people dying from pneumonia due to the wearing of these oxygen limiting medical devices. Under s51 (xxiiiA) of our constitution it clearly states from the referendum which was held in 1946 no medical or dental can be forced upon the people of Australia and this was upheld in 1996 Breen & Williams HCA and Wong v Commonwealth HCA 2009.

Please end the so called State of Emergency and any corresponding Emergency Powers now and let the people of Queensland and Australia resume life as normal.

Sincerely,

Natalie Webber
