Subject: PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022
Date: Friday, 4 March 2022 7:47:42 AM

To the
Committee Secretary
Community Support and Services Committee
Parliament House
George Street
Brisbane Qld 4000

I am contacting you regarding the extension of the bill to further extend the operation of essential public health measures implemented to facilitate Queensland's response to the COVID-19 pandemic. I am absolutely against this extension due to the unravelling of the pandemic protocols by the rest of the world and our own beautiful country.

There is no reason at all to extend the power of the state government in relation to COVID-19. The segregation and discrimination of our society from these mandates has impacted so many families socially, financially, and emotionally from the fallout of losing their jobs, not being able to visit sick and loved ones, not being able to move freely within the state of Queensland and having to show their medical information to total strangers when convicted paedophiles and rapists, for example, have their records sealed from the general public.

The infringement of human rights decreed by this government has been an overstep of authority in a democratic nation.

Please call me if you would like to discuss my opposition to this extension further on [REDACTED] or write to me at [REDACTED]

Regards,
