**Date:** Friday, 4 March 2022 8:18:36 AM

---

Dear Committee

Please consider the crisis in mental health in Queensland as a priority when making your decision about the extension to emergency powers .

The official suicide numbers are not reported and for good reason . The despair would be overwhelming to those on the edge contemplating the same .

Please trust the people of Queensland.

We are weary and have lost trust in mandates that are the cause of such carnage .

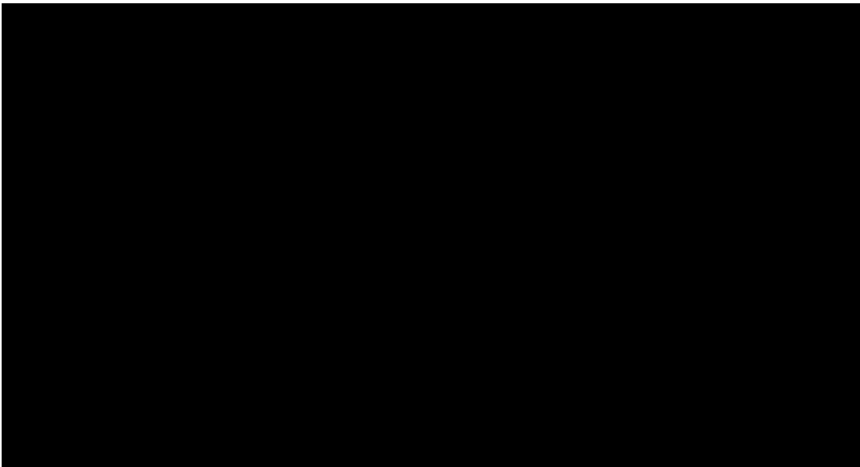

Please do not extend the emergency powers .

Kind Regards  
Maree Watson
