**Subject:** PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL  
2022 submission  
**Date:** Friday, 4 March 2022 8:40:39 AM

---

To whom it may concern,

My name is Carley Trimble I am a mother of 5 with a background in nursing. I am writing this submission to express my dismay at the attempted extension of the current state of emergency.

If there ever was a reason to enact this bill it has now long expired.

We are all learning to live with Covid.

The numbers are in, by your government's own admission the number of people who have died from Covid (not with) is nowhere near pandemic levels.

All QLD children are suffering from the needless mask mandates and the fact that as a parent one cannot even volunteer at their tuckshop unless they are "fully vaccinated".

The mandates for vaccination has not worked.

The vaccine does not stop transmission, of this virus. This is obvious considering once the border was opened to only "vaccinated" people the numbers of QLD covid cases exploded. Mask mandates have also proven ineffective.

Small business which should have been booming after 2 long years of rubbish has almost been decimated due to covid restrictions, and to be honest as government is supposed to represent the people it blows my mind that they are not more aware of the damage they have caused the QLD people.

The recent release from Phizer of documents on the "vaccine" includes 9 pages of side effects, which in my opinion is a very real reason to choose bodily autonomy.

In summary I am very strongly opposed to the proposed legislative changes for the reasons I have stated above and so many more.

I implore you to re think this legislation and realise it is not in the best interest of Queenslanders.

Kind regards  
Carley Trimble

Carley Trimble
