---

Good morning,

Please do NOT extend the Emergency Bill.

There has been enough damage and enough division, and enough hurt caused by the actions of governments at all levels and all political persuasions already.

The gross exaggeration of Covid data has not concealed the panic responses from so many governments.

We have several people who have been fired from long term jobs because of their medical decisions. This should never have happened in a “free” country.

We are obviously not free to choose for ourselves anymore.

Treatment is available, information is available and freedom needs to be returned immediately.

I have been affected by covid within my own family, I am not speaking without experience.

We keep saying “learn to live with Covid” but our governments are not taking steps to facilitate that, they still want to rule divisively.

Swallow your pride, end it now... minor parties will have a field day at future elections if you continue these actions.

Tony

**Kind regards**

**Tony Kusters**
