Subject: Submission to the Committee
Date: Friday, 4 March 2022 8:59:13 AM

Dear Committee Members,

I am writing to express that the proposed extension to the State's Emergency Bill until October 2022 is unnecessary to stop the transmission of COVID-19.

As evidenced over the recent months, the measures the State Emergency Bill put in place have not stopped the spread of COVID-19. These measures have had far greater detrimental impact on the community as loved ones have been separated from each other; people's livelihoods have been destroyed; people's medical treatments have been postponed or taken away from them; and these measures have highlighted the poor state of Aged Care within this Queensland.

To place an abundance of power in one role in government is not the solution for fighting pandemics.

I hope this Committee will work for the betterment of our communities and stop the push for draconian measures to govern the population.

We all have a future and our future lies right now in your hands, please use your powers wisely and carefully.

Yours sincerely,
Dr Danielle Carter
