**Subject:** SOE - NOT to be extended  
**Date:** Friday, 4 March 2022 9:17:05 AM

---

Good Morning

The purpose of this email is to state that we DO NOT want an Extension to the Emergency Bill (until 31st October 2022).

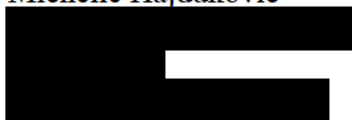

The extension of power is based on COVID deaths in Queensland and COVID number, The ABS data is now showing the exaggeration of this data and is not the true amount of actual deaths of people that have died FROM COVID and not WITH COVID.

The QLD GOVERNMENT has stated that it wants the state at 80% double vaccinated and then 90% double vaccinated, these have both been achieved, and still, we have mandates. New data is showing that Omricon is now more like a cold and it is better than any vaccination out there.

Every day there are more and more people suffering from adverse reactions to the experimental drug (and yes it is experimental, just because you have authority under an SOE does NOT make the drug safe), than there are with COVID-19. Allow our doctors, nurse, virologists to speak without the threat of them losing their jobs and you will find the truth.

Please cancel all SOE powers, mandates and let us get on with our lives.

My details are:  
Michelle Hajdukovic

Please be fair and reasonable and stop trying to force your people into this life, let us move forward as proud Queenslanders and move our state forward - TOGETHER.

Kindest Regards

Michelle Hajdukovic
