Subject: Request there not be an extension to the Emergency Bill Pass
Date: Friday, 4 March 2022 9:27:17 AM

Hi Community Support & Services Committee,

I request No extension of the Emergency Bill.

Healthy people very rarely suffering, or being harmed by Covid - you could almost say 100% of healthy people are ok - especially the young.

There is an extensive list on the TGA website for adverse reactions to the vaccinations. I personally know two healthy people who have suffered adverse reactions to the vaccines - Pericarditis and Myocarditis.

Pfizer is refusing to release their data relating to their trial, why?

The segregation of the unvaccinated is sickening considering the vaccine does not stop the spread. To think people have lost their jobs, it's wrong.

Regards
Tanya
