Subject: Do Not Pass the Emergency Bill!
Date: Friday, 4 March 2022 9:30:34 AM

To whom it may concern

I'm writing to request the extension to the emergency bill does not pass and is abolished immediately!

I live in a small rural community in qld. Our community relies and thrives on essential workers and volunteers. The mandates in particular the vaccine mandates are impacting key workers and volunteers needed to keep our community alive.

We have lost teachers (who are already so difficult for us to obtain and retain)

We have lost nurses who are in such short supply to our community at the best of times.

Community organisations and events such as our local show have divided our community as parts of the community are prohibited from entering and already small numbers of volunteers are decreased because they are not allowed to assist because of their vaccine status.

The extension to the emergency bill will put a nail in the coffin to our rural communities. Any extension now is just a deliberate attempt to kill our small communities and ruin the essential services we need to raise our families.

Please I beg end these emergency bills NOW! Surely by now we can live and deal with covid without this control in place.

Sincerely
Kristelle Townsend
