**Subject:** Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022  
**Date:** Friday, 4 March 2022 9:40:15 AM

---

To Whom It May Concern,

I hereby reject the proposed Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 for the following reasons:

1. Deaths from COVID have been greatly exaggerated – only 48 Queenslanders have died from COVID in the last 2 years.
2. Mandating of people to become scientific test subjects of only a provisionally approved drug is not acceptable.
3. Time has proven that the vaccines neither stop the spread, are not safe and cause serious health complications, hospitalisation and even death.
4. COVID is being used as an excuse to crash our economy and also to segregate, divide and discriminate against people.
5. Contact tracing and forcing people to download an App allowing them to be tracked and traced violates personal privacy laws.
6. COVID has now been downgraded from a pandemic to an endemic by the WHO. There is absolutely no need to extend emergency powers for a endemic disease.
7. There are many different forms of treatment that have been proven to be efficient in treating COVID.

Under no circumstances should the Government be allowed to legislate over human rights and/or the constitution.

Regards

Amanda Sisson
