As a Qld resident of over 50 years, I DO NOT agree with the extension of a state of emergency that DOES NOT EXIST. It is high time these extraordinary powers given to unelected beaurecrats is removed. The pain and suffering of the people of Qld, caused by this government is criminal, and most certainly based on 'selected' 'science' and twisted statistics. No more phony 'state of emergency'. It must be rescinded.

Glen J. Campbell
