Subject: OPPOSED TO Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022
Date: Friday, 4 March 2022 10:01:47 AM
Importance: High

To whom this may concern,

I STRONGLY oppose to this bill and its reasoning.

The last two years have shown and proven that this Emergency bill has not had the desired effect and has been used by Parliament as a vehicle to make decisions on behalf of ALL Queenslanders without the appropriate due diligence.

Most of these decisions divided the State and has caused a lot of people Health, Financial or Social strain.

Please do not allow this extension to take effect and return Queensland back to normal where Unity and Mateship were the norm.

With regards,

Arjen Starrenburg
