Subject: Do not extend emergency powers
Date: Friday, 4 March 2022 10:07:12 AM

Dear Sir/Madam,

Please do not extend the emergency powers till October.

This would be a disaster for Queensland. This would cause more needless suffering to residents, more businesses going broke, more suicides, more pain to families being separated. A lot of damage has already been done, please don't prolong it.

The data from covid deaths has been over exaggerated in the government and the media. We don't need more suffering. Also the injuries and deaths from the vax as seen in the TGA website has been under reported in the media.

Yours sincerely,
Barbara Bluett
