To whom it may concern

There is zero legitimacy in your quest to keep granting more power to this government.

Please consider this as a formal lodgement protesting against this insane proposal.

There is NO pandemic. The only emergency is the economic damage this government has created through its appalling mismanagement.

You have deliberately exaggerated the Sars CoV2 infection rate
Mandated experimental, and proven dangerous drugs, in order for many of us to be able to work. (Illegally overriding the Commonwealth constitution)
You have segregated the community
You have caused untold misery and damage

I do NOT consent to allowing any of you to continue this charade.
