I Amanda Robinson

Wish to put in a submission disagreeing with the extension of this legislation

PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022

which goes against all human rights and enables your actions against humanity. Stop all mandates and give people back there right's and right of CHOICE. As a voter and tax payer I am ashamed and horrified by Queensland Government's actions over the last two years. You have treated your tax payers and voters terribly and taken all our rights away from us and violated my human rights, you should be ashamed of your actions as human beings. I am saddened by your none actions to protect your people and our human right's.

Regards
Amanda Robinson
