To whom it may concern,

I am addressing the extension of emergency powers to the Queensland state government amendment bill. This bill should be scrapped as the pandemic is over. You have no medical or scientific basis on which to approve this bill. The government's overreach in this pandemic has proven catastrophic to small businesses and the community in general. The government should adopt the same policies as other countries are doing, and remove all restrictions and mandates and allow all people to get on with their lives with no restrictions and segregation.

Sincerely

David Blackadder
