Subject: Emergency Bill
Date: Friday, 4 March 2022 10:31:02 AM

To whom it may concern,

I am writing to ask that the extension to the Emergency Bill (until October 2022) be dropped and NOT PASSED at the continuation of the bill in place.

I have lost my job due to the vaccination mandates. I do not believe that vaccination status should impede on my capability to do my job effectively or to do it to the highest of my ability. My skill sets (or anyone else's for that matter) are valuable and should not be tossed aside because I've made a choice to not participate in a medical procedure.

Our country and state is divided due to these harsh mandates. Our country and state are crying for solidarity, choice and freedom and to end the segregation and division to end.

Please, put an end to this for our children's sake!

Yours sincerely

Alex Klease
