---

Morning,

My name is Neil Farnworth  

I'm a Registered Advanced Care Paramedic with over 20 years experience currently employed by QAS.

Why are they trying to extend the emergency order?

I believe we are no longer in an emergency situation!

The only emergency situation is that people are not getting emergency care in an appropriate timeframe.

There are still respiratory patients surfeiting because they are not getting the right treatment because of the chance they may have COVID even if tested negative on a RAT!! Patients not getting to see family/friends if in hospital or age care on important milestone birthdays, that they may not even get another birthday! Because of the rules of only 2 visitors in hospital etc.

It's cruel and unjustified for a variant that is so mild that most only have very mild cold symptoms.

It has to stop.

The mandates must be stopped.

I am still unable to work because of the mandates. Yet you can still catch and spread the virus even if vaccinated!

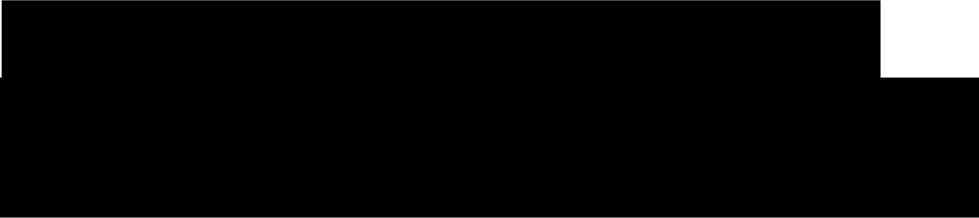

All I want to do is work as a Paramedic and help the poor people of Queensland who have been affected by the recent floods.

Please stop these emergency orders/powers now.

I'm begging you.

Regards

Neil
