To Whom it may concern

I Trevor Bavington, do not support any extension of the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

I do not believe that Covid 19 poses such a threat to Queenslanders to justify any further Extensions. With over 90% of people vaccinated, an ample supply of RAT's available and a readily available supply of "vaccines" available for boosters. It is about time we returned to normal as have a growing number of Countries around the world.
