To the Committee Secretary,

I write to the committee to clearly state my opposition to all parts of the Public Health and other legislation (Extension of Expiring Provisions) Amendment Bill 2022.

We have been living under a 'State of Emergency' for over 2 years and I am opposed to any further extensions of emergency powers. The result of these powers have caused infringements on human dignity, human rights and fundamental freedoms of Queenslanders.

We now have more than enough evidence of the negative impact of mandates and lockdowns as was predicted in the Great Barrington Declaration.

We also now know that the vaccines have not worked to stop the spread of the virus as detailed in this study.

The rest of the World is now living with COVID and I am embarrassed that they perceive Australia as a renewed prison colony.

What is done is done, it is now time to come together and move on.

Regards,
Michael Ryan
