Subject: Emergency Bill extension you propose to extend until the 31st October 2022
Date: Friday, 4 March 2022 10:50:31 AM

To Whom it may concern.

I do not agree with or consent to what I clearly see as a violation of our constitution and human rights.

Over the past 2 years our information and Covid data has been poorly managed and extremely over exaggerated to the point where it shows that the death rate is no different to Influenza and in the elderly who are already suffering several other health issues.

You cannot justify injuring, and causing death to hundreds of thousands of young men, woman and children.

The segregation, discrimination, job loss, business closures, homes taken, suicides, injuries, deaths from an injection that clearly does not stop you contracting, getting or spreading this virus that is at its worst a flu like virus and at its simplest a 2 day minor cold.

I have seen the data from the Australian Bureau of Statistics, the numbers of horrifying to say the least, this whole agenda needs to be abolished and those who allowed it raked over the coals for the carnage they have inflicted.

I personally have been affected by this. My own son, who believed this narrative, who almost died as a child, took the injection and spent Christmas in and out of hospital on heart monitors and 2 months in bed sick, he still suffers fatigue and has been put on anti depressants. I cannot begin to tell you how distraught I am. My friends sons all have myocarditis.

My business is not bringing in a cent, I struggle to pay my mortgage as my students and clients can no pay their bill with me due to losing their jobs as they are not willing to risk their lives for an experiment that Pfizer have documented as causing harm, that does not work.

I personally find it bizarre that someone like Bill Gates, an IT person doing talks on injections when he is not medically trained and has been seen on camera talking about how he shoves GMO injections right into the veins of kids, and how this has been the best financial investment he has ever made, I have it on camera. Does this sound like it is for the wellbeing of humanity? NO it does not.

We must stop this now. There is no emergency. I do not remember ever having to go through this when there was a SARS 2 outbreak

In 2003 to 2004 or the Ebola outbreak in the early 2000s with Ebola. This must end now. Stop the masks, they do not stop virus. Social distancing

Who on earth came up with that psychological misinformation. Stop injections and forcing business to discriminate against those who have

Not had the injection, stop allowing business to sack those not injected. Stop allowing state police to force business closure and fining people.

all of this is unlawful, unnecessary, unconstitutional and not what the Australian people want.

Look at the Pfizer documents, look at the stats, the real ones not the bodgied up ones from those who have something to gain from this.

It's time our media, our government started telling the truth, not censoring it, we the people have the right to know the truth, and under the constitution

We the people do not consent as we are the commonwealth and it is our right to be heard.

When did this government decide they are no longer

Public servants and put themselves in a position of dictator?

My apologies if you find this offensive, that is not my intent, I am in pain, my family are in pain, our country is crashing, you must stop this now.

Kind Regards

Deborah Norman
