**Subject:** I DO NOT Want an Extension to the Emergency Bill until 31st October 2022

*Dear Committee,*

*I do not want an Extension of the Emergency Bill as it is not needed anymore.*

*The original Emergency Bill was granted based on a predicted death rate from the Alpha and Delta variants.*

*Current data shows that the original modelling overestimated COVID deaths and infection numbers.*

*The extension of powers is based on these estimated COVID deaths and infection numbers in Queensland.*

*The Government's own modelling shows any peak has now passed and the health data demonstrates any extension is not warranted and should NOT be granted.*

*There are no sensible justifications for the extension of these powers whether for health safety, on economic grounds, civil liberties, mental health or any other metrics.*

*The potential for continued discrimination via these emergency powers is unacceptable to any democratic society.*

*Given the current flooding emergency, Queenslanders have had enough.*

*There can now be no justifications for these mandates to continue by placing further burdens on Queenslanders.*
