To the relevant committee

I, Kelly-Ann Bavington emphatically oppose any Extension of the Emergency Bill for any reason, regarding Covid and associated subjects.

As a Registered Nurse of over 30 years experience I am aware of the science and health risks of Covid. I am also aware of the health risks associated with Covid vaccines, face masks and social isolation.

The first has been highly overexaggerated, the second covered up and misrepresented. There is absolutely no scientific or health justification for the extension of this bill.

Thank you for taking the time to read my email.

Kelly-Ann Bavington
