Dear Committee Secretary

Re: Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022

Please note my interest and point of view of this Government's reaction to Covid19.

There should be NO extension of the BILL.

When these Emergency powers were brought forth into the QLD legislation they were done without due diligence and actually illegally under the Federal Government laws.

They enabled this Qld Government to control the narrative and without freedom of speech or even so far as not allowing the citizens to have the ability to question and research . They have divided a community through fear and manipulation.

As far as I am aware, I live in a democratic society that enabled me to choose how I live, giving me the freedom of saying No to a Vaccine that is still in "experimental/research" stage and has known adverse side affects.

The ultimate misuse of power was to "Mandate Vaccine" to work or even live a life as we knew it.

Incorrect reporting of actual Covid cases and actual Covid deaths due to all Health Staff being told not to report the truth.

Further to this Health Staff were:

- Not allowed to correctly report adverse reactions,
- Not allowed to give vaccine exemptions, even though evidence was available
- Not allow to treat "unvaccinated" in a timely and morally ethical manner, even to the point of not allowing unvaccinated to be a Organ donor recipient
- Segregation of the "unvaccinated"
- Not being allowed to give their professional opinion even with their many many years of health care wisdom and practice
- Not reporting that the greater majority of Covid patients are in fact the vaccinated!

All of these examples are a a gross misuse of your powers.

Sadly though, these a just a very few examples of what has actually happened.

Cracks in this Governments facade started to show when Sports communities, Celebrities and Politicians received preferential and bias treatment whilst the general population had to abide by your rulings and so called Health Guidelines. Sadly some were in actual fact left stranded living, in cars in NSW with children because you could not/would not waiver the same conditions you waived for those NRL Players. I and many other were appalled by those rulings.

I was disgusted with the Premier's quote that this virus will **"Hunt you down"**. **How and more importantly WHY was this misinformation and outright lie allowed to uttered? Under this Emergency Bill?**

The Qld community has had enough

- Ridiculous lockdowns called just to extend previous emergency powers
- Borders being shut on a whim - yet others allowed to enter
- Health guidelines that are not healthy for either body or mind
- Mandated guidelines to deny visits to elderly so they actually died alone
- Mandated Vaccine requirements that only have caused loss of life, income and abhorrent segregation

- Quarantine centres being built!!!!!!
- Integrity Committee being disbanded and documents either erased or altered.
- **I have not even ventured into the Financial, Emotional, Spiritual well being of Queenslanders. We the community will be paying the price of this gross mismanagement for decades to come, and I believe some of us in the community sadly will not survive this psychological experiment you have conducted.**

If this Government governed in a transparent and honest manner, this control would not have been needed.

NO you do not need to extend the Emergency Bill. Govern with honesty and integrity.
