Subject: Extension of emergency powers
Date: Friday, 4 March 2022 11:06:09 AM

Good morning,

I would like to voice that I don't support the extension of emergency powers. This is not needed and is a clear power grab from our governments. Coercion and discrimination towards individuals who did not wish to receive the mRNA injection is criminal. And it's time for us individuals and tax paying citizens to be able to sue the pharmaceutical companies and involved politicians related to this criminal activity. One can argue that individuals we're unable to give informed consent as only until recently have the side effects been released by said pharmaceutical companies. Enough is enough with your power grab. There's no health emergency and absolutely no need for any form or check in app or app that divulged ones personal medical history to anyone other than our gp during this false pandemic if control over the citizens of Australia, there have been numerous violations of human rights laws and of federal laws.
