RE:- Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022

To whom it may Concern.

I am totally against extending the above-mentioned Bill.

Since its introduction we have seen the economy smashed, small business decimated, hundreds of thousands of jobs lost and people's lives turned upside down, being evident in the increase in suicide and mental health issues.

All sacrificed for "public safety"- along with free speech, the right to peaceful assembly, the right to work, freedom of conscience, bodily autonomy, government transparency and public trust in our institutions.

Even worse there has been a fundamental change in our relationship with each other, a change clouded in suspicion and mistrust. This madness must end now!

Yours Sincerely,

Craig Austin
