**Subject:** Submission PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS)  
AMENDMENT BILL 2022  
**Date:** Friday, 4 March 2022 9:38:32 AM

---

To whom it may concern,

Please accept this submission made by myself Jessica Williams of [REDACTED]  
contact number [REDACTED].

My submission is that the Committee not allow this bill to pass.

There is no strong medical evidence to allow our government to continue to have the overreaching powers it currently has over the Queensland people.

In the best interests of the Queensland people having a government not dictate their everyday life without correct medical advice is unacceptable.

There is too much peer reviewed studies and proof around the world to show that the 'emergency' is over and infact was not an emergency at all.

1% of people die from Covid if that, figures are changing constantly. Countries around the world have stopped their emergency orders.

It is time for the Queensland government to allow people and businesses to have confidence that they can move forward in their lives and to bring this state back to life.

No one in this state thinks this bill is a good idea except those who will benefit from its powers.

NO NO No

Kind regards,

Jessica Williams
