Re: The Extension Of The Emergency Bill (until 31st October 2022)

To:-

Committee Secretary  
Community Support and Services Committee  
Parliament House  
George Street  
Brisbane Qld 4000

Mr Robert L Haughey,

Thursday 3 March 2022

To:-

The Committee Secretary.

Dear, Sir/Madam.

I am writing to lodge my objection to the Queensland Government proposed extension to the emergency powers. The entire Covid exercise has had little to do with the health of Queenslanders, it's been more about gaining very much draconian like power. Revealed in a recent report by the Australian Bureau of Statistics January 31 2022. The true number of individuals affected by the virus being far less than reported by the various government bodies.

The number of fatalities attributed to Covid where actually of people who died with Covid, approximately 0.9% and not solely of Covid 92% of whom had other serious health issues and where at life expectancy. Covid has been used as a weapon by the various Australian governments against the people, those who elected politicians to serve, many of whom have chosen to turn on and attempt to bring about slave like control of their constituents through lies and deception.

The Queensland Government and namely the Primer have lost the right to govern, from the moment the government set forth and published falsified figures. The government has also set out to divide people along

failed and dangerous vaccination status. The Therapeutic Goods Administration had published at one stage some 700 plus deaths after vaccination and 104,000 adverse events as a result of the vaccines, many extremely serious. The government would be well aware of these figures yet it is still blindly and illegally enforcing vaccinations.

I personally have not been greatly affected by the various illegal mandates the government has enforced. I know many though who have been forced onto the unemployment line as a result of them. Governing bodies in Australia do not have the right to force a medical procedure upon people against their will. Mandating forced injections in light of the serious adverse effects recorded, reveals to me the undesirable motives on the governments part. It is akin to that practiced by one Josef Mengele.

It is for the above reasons I request that the Emergency Powers be curtailed, never again to be put upon the people of Queensland. I am a 75 year old Vietnam Veteran who thought he was serving to preserve the peace and freedoms of the peoples of South Vietnam. What I see taking place in Australia at present is intentional eradication, an attack on our God given freedoms, the right to work, to earn a living without coercion in any form to undergo forced medical procedures.

Regards R Haughey.
